DPHSS Guidance Memorandum 2021-16 Rev03 (Amendment 02)

Re: Definition of "Quarantine"

Amend page 1 of 6.

From:

"Quarantine" is the limitation of freedom of movement of such well persons or domestic animals as have been exposed to, or are suspected to have been exposed to, an infectious agent, for a period of time not longer than the longest usual incubation period of the infectious agent, in such manner as to prevent effective contact with those not so exposed. A close contact is placed in quarantine.

To now read:

"Quarantine" is the limitation of freedom of movement of such well persons have been exposed to, or are suspected to have been exposed to, an infectious agent, for a period of time not longer than the longest usual incubation period of the infectious agent, in such manner as to prevent effective contact with those not so exposed. A close contact is placed in quarantine.

All others remain unchanged.
